This image shows a 3D CAD model of a carriage assembly in the Onshape interface. The main body is a grey rectangular block with four circular holes. It is mounted on a red base plate with two green side plates. Handwritten red text 'LM' is near the top left, and 'Carriage' is written vertically along the side of the grey block. A coordinate system cube shows Top, Front, and Right axes. The Onshape interface is visible with toolbars, a feature list, and a parts list.
